92

$$c(s, \bar{s}) = 5 + 12 + 20 + 16 + 15 + 24 = 92$$

$$v(f) = 92.$$

$s \rightarrow 1 \rightarrow d \leftarrow 4 \rightarrow a \rightarrow t$

↑ Les noeuds non marqués à gauche + les noeuds marqués à droite forment un transversale

b, c, f

$$V(f) = 8$$

$$\boxed{V(f) = 11}$$
